Class Reunion

MAY 22, 1994

The graduating class of "64" planned a reunion on May 22, 1964. All the graduates made it to the reunion. This is what Mr. Rice learned when he attended the reunion.

Soon after graduation, "Fizz" moved out west and bought a 2,000 acre farm. For the first few years on his farm everything was fine, then his crops failed. Discouraged earlier in life he never married. He then sold his farm and moved back to Freedom where he got his old job back. You have all heard of the "Fish Creek Monster," well, now you know what it is and there is nothing to be afraid of now.

Jim decided he would like to become a mechanic, so he attended Ford Motor Company School in Detroit. When he came back, he decided he would like to work in the Burch Implement Factory at Evansville. In a few years he bought out the company and moved it to Freedom. Now he is the largest implement producer in the state of Indiana. He now lives in Freedom with his wife, Nellie, and his four kids.

Soon after graduation, Ted decided he would go into the meat packing business. He established a factory in the creek bottom back of his house. He liked venison so well that he accidentally invited the game warden to supper. He is now out on parole!

Denny decided to choose a service career, being so anxious to help his fellow countrymen. After thirty years of service with the Navy, Admiral Sheese has returned to our reunion with all the honor and glory due his position. He plans to retire in the coming year and find him a good wife and thus bring his years of wandering to a close.

"Aunt Minnie" (Irma) has since become "Aunt Minnie to everyone who visits her still over in White River Bottom. However, she's not in any danger. (Her husband is the sheriff and likes her business.) She seldom comes out to civilization except when she is in dire need of business supplies. Incidentally, she brought some samples along to the reunion.

Susie appeared in her overalls and driver's gloves for the reunion. Since graduation, she has been deeply engrossed in her father's trucking business. She has driven through half of the Indiana counties and has collected a gravel specimen from each one of them. She brought the twelve children in the older of their five dump trucks today, and has been demonstrating her driving ability by hauling the small kiddies around for nominal fees. (She has to have some supplement to her salary.)

The former Katy Buffaloe turned up today with her husband, Bob, and ten of the fifteen kids. She has evidently been fairing quite well since she has apparently put on about a hundred pounds since graduation. She now holds the title for the National Title for the Heavyweight Wrestling Championship. Having been in the ring over forty times, she has emerged the victor every time except two and that was when she came up against her match--Becky Knoy.

Sandy has the reputation of being the first woman driver to enter the "500" in the Indianapolis Holiday Race. She has won the championship for the last five years and is looking forward to the race against her opponents again this year. She came in her new 1994 Space-Mobile which has clocked at 400 miles an hour. In high school she was afraid to drive. Congratulations!

Senior Class Will

I, Irma Trader, will my having fun in the study halls to Linda Conway, and my cheerleading ability to Sharon Bland and Edna Keasling.

SENIOR FAREWELL

In 1960 we began our four-year search for knowledge at Freedom High School.

Now it is 1964, we can look back over the years recalling good events of our high school days. We remember the happy times and, some of the sad ones.

May this book be the memories of the school year of 1963-64.
